Dear Sir or miss Dignon:

I am writing you because of this article I found in the newspaper.

if you people are so concerned about burying the nuclear fuel waste, why don't you fill up one of the T.C.B.M's missiles we have in storage and send it into space to infinity and blow it up, it won't hurt us on earth, it may be a little more expensive that way, but you won't have to worry about it anymore.

Thank You

andy a. remora

P.S. please excuse the hand writing, I don't have a type writer.

Public Hearing

The Department of Energy invites you to provide comments during its public hearing on the *Draft Environmental Impact Statement (Draft EIS) for a Geologic Repository for the Disposal of Spent Nuclear Fuel and High-Level Radioactive Waste.* The Draft EIS evaluates the potential environmental impacts of constructing, operating and monitoring, and eventually closing a repository at Yucca Mountain in Nye County, Nevada, to dispose of our nation's spent nuclear fuel and high-level radioactive waste. This environmental impact statement will help government officials make informed decisions about this important issue.

**Tuesday, February 22, 2000
11:00 a.m. - 2:00 p.m. and 6:00 p.m. - 9:00 p.m.
Radisson Hotel
295 North E Street
San Bernardino, CA**

The first hour of each hearing will include a brief overview of the Draft EIS and a question and answer session. The remainder of the hearing will be reserved for public comment.

You may schedule a time to provide oral comments by calling 1-800-967-3477, or register at the hearing. If you are unable to attend this public hearing, please write, fax, or e-mail your comments by February 28, 2000 to:

Wendy R. Dixon
EIS Project Manager, M/S 010
